

DICING TAPE APPLYING APPARATUS AND BACK-GRINDING/DICING
TAPE APPLYING SYSTEM

5

ABSTRACT OF THE INVENTION

10 A dicing tape applying apparatus, comprising a pre-cut dicing tape edge position detector detecting the edge of a pre-cut dicing tape and a cutter cutting a non-cut dicing tape into a desired shape when it is applied, and able to use both the non-cut dicing tape and the pre-cut dicing tape, has been disclosed.
